All the asynchronous courses will be provided in the Moodle environment, while synchronous courses will be given with the MS Teams.

**Asynchronous:** These courses have no live interaction. The videos/audios (if available) and other materials that are uploaded to Moodle can be studied by student whenever they want, on their own.

**Synchronous:** These courses will take place on MS Teams, they are live courses. Time of these courses will be same with the defined course time in the semester.

Application hours for CENG 113 will be coordinated by the lecturer of the course.
